

PRESSEMITTEILUNG

Solaris debuts in another European country

Bolechowo / Sarajewo, 25.03.2025

The Ministry of Transport of the Canton of Sarajevo ordered 10 articulated trolleybuses from Solaris. The delivery of the Trollino 18 vehicles is scheduled for mid-2026. With this order, Bosnia and Herzegovina will join the impressive list of 36 countries with Solaris vehicles.

Representatives of the Ministry of Transport of the Sarajevo Canton and Solaris Bus & Coach have signed a contract for the purchase of 10 Trollino trolleybuses, each 18 meters long. These modern, zero-emission, and quiet trolleybuses will be delivered to Sarajevo in mid-2026. The procurement tender for these trolleybuses was conducted and financed in collaboration with the European Investment Bank (EIB).

In addition to traditional trolleybus drives, the articulated Trollino 18 for Sarajevo will be equipped with batteries, allowing them to cover distances of up to 20 km without connection to the overhead catenary system.

With this order, Bosnia and Herzegovina will join the list of countries where Solaris' modern buses and trolleybuses serve urban transport systems. Until recently, this list included 33 countries, but in the past few months, the United States and Canada have been added. Bosnia and Herzegovina will become the 36th country to incorporate Solaris vehicles into its modern and sustainable public transport system.

To date, Solaris has delivered more than 5,500 zero-emission vehicles, including battery-electric buses, hydrogen buses, and trolleybuses. Solaris is the European market leader in trolleybuses. In 2024, the company held more than 60% of the market share and, to date, has delivered nearly 2,500 trolleybuses to customers in 70 cities. The largest single order completed so far was last year's delivery of 100 Trollino 12 trolleybuses to Bucharest.

Über die Firma

Solaris Bus & Coach sp. z o.o. ist einer der führenden europäischen Hersteller von Stadt- und Überlandbussen mit Schwerpunkt auf die Entwicklung von emissionsfreien Fahrzeugen, d. h. Elektro-, Wasserstoff- und Oberleitungsbussen. Dies bedeutet zugleich das breiteste Angebot an emissionsfreien Fahrzeugen auf dem europäischen Markt und die Position des Marktführers in diesem Marktsegment mit einem Anteil von 15,2%. Knapp 25.000 bisher gelieferte Solaris-Fahrzeuge sind bereits in 33 Ländern und 850 Städten in ganz Europa und außerhalb im Einsatz. Solaris ist Teil der spanischen Gruppe CAF (Construcciones y Auxiliar de Ferrocarriles) S.A. Vom Konzept über die Entwicklung bis hin zur Fertigung entstehen Solaris-Busse

in Polen. Alle Aktivitäten des Herstellers stehen im Einklang mit seiner Markenbotschaft: „Wir ändern das Gesicht des ÖPNV“. Solaris ist auch ein aktiver Partner für städtische Verkehrsbetriebe und bietet ihnen umfassende Unterstützung bei der Umstellung auf emissionsfreie Mobilität.
