

## PRESS RELEASE

### Electrifying Autumn with Solaris Events!

Bolechowo, 15.09.2021

**The world première of the newest Solaris electric bus and a conference devoted entirely to e-mobility will make the upcoming autumn full of energising experiences. The events will take place on 30th September and 7th October respectively – save the dates!**

The launch of the Solaris Urbino 9 LE electric bus and the #SolarisTalks 2021 conference are among the most important e-mobility events this autumn. Both will take on an interactive online format. Participation is free of charge. We invite all those interested in the best solutions for modern and reliable public transport to join us.

#### Launch of the Urbino 9 LE electric bus

Solaris will soon unveil its latest electric model, the Urbino 9 LE electric bus. The new vehicle complements the 4<sup>th</sup> generation Urbino bus family. Moreover, alongside the Urbino 15 LE electric bus, it is yet another Solaris electric solution for intercity routes. The timing of the debut of the Urbino 9 LE electric bus is significant for the company as it has been exactly 10 years since the first Solaris electric vehicle was launched.

The new model will be presented at the online premiere by members of Solaris Management Board and the vehicle's designers. The showcase will be held on **30<sup>th</sup> September** at 12.00 and broadcast live on the manufacturer's website

#### #SolarisTalks 2021

The latest trends in urban mobility, various applications of hydrogen technology in practice, exchange of experiences with e-mobility experts – these are just some of the reasons to participate in the #SolarisTalks 2021 online conference dedicated to e-mobility.

The event will focus on two key aspects of zero-emission transport: electric vehicles and hydrogen technology. Participants will have the opportunity to listen to presentations by Solaris experts and to follow panel discussions with industry representatives boasting experience in the implementation of state-of-the-art practical solutions. In addition to the main programme, Solaris will hold Q&A sessions and is preparing networking activities and other highlights. Peter Hinssen, an author of books on technology, futurologist and entrepreneur, will be the special guest speaker of the conference.

#SolarisTalks 2021 will take place on **7<sup>th</sup> October**. To participate in the conference, fill in the registration form available on

□ [solaristalks.com](http://solaristalks.com). Shortly before the conference, registered participants will receive a special link to access the event.

Solaris would like to invite its customers, suppliers, local and regional authorities, media and all other interested in innovative and breakthrough solutions that contribute in real terms to the transition to zero-emission public transport to both events.

To stay up-to-date with all the information, join the events on Solaris's social media profiles

and websites!

#### About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
