

PRESS RELEASE

Coming soon: ONLINE LAUNCH of the Urbino 18 hydrogen bus and #SolarisTalks 2022

Bolechowo, 05.09.2022

Solaris would like to invite you to the official online launch of the Urbino 18 hydrogen bus and to a discussion about e-mobility with experts from a host of different countries. For all those interested, both events will be streamed online.

On 14 September, Solaris will present its articulated Urbino 18 bus to the public for the very first time. The official launch of the latest Solaris bus will be preceded by the international #SolarisTalks 2022 conference.

The event will begin at 9:00 am (CET), and the first part will be an international e-mobility #SolarisTalks 2022 conference. During this meeting our experts from the Technical Office and members of the Solaris Management Board will share their knowledge and experience in implementing e-mobility solutions in various European towns and cities, developing hydrogen technologies and offering advanced after-sales services.

Adrian Zinke, Head of Technical Department at German operator Regionalverkehr Köln and our special guest speaker at the #SolarisTalks conference, will share his experience as an operator in deploying and operating hydrogen buses as part of Cologne's public transport system.

These talks about e-mobility and cutting-edge technologies will prepare the participants for the Main Event of the day, the world premiere of the Urbino 18 hydrogen bus, planned for noon (12:00 CET). This will be the first opportunity ever to see Solaris's newest product live as well as to learn more about its technical aspects and take a closer look at its innovative design.

Both events will be live streamed at www.solarisbus.com

See you soon!

* Prior registration is not required.

About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities

undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
