

## PRESS RELEASE

### Huge order from Transdev in the Netherlands: 96 Solaris e-buses for the province of Utrecht!

Bolechowo, 17.10.2024

**We can now share the fact that earlier this year Transdev Nederland Holding has placed a significant order with Solaris Bus & Coach. The manufacturer will supply 96 zero-emission battery buses to the operator. Deliveries are scheduled for the last quarter of 2025.**

Transdev Nederland Holding has selected Solaris Bus & Coach as the supplier for an extraordinary order of 96 battery-powered buses. Deliveries are scheduled for the last quarter of 2025.

The modern fleet of battery-powered Solaris buses will serve public transportation in the province of Utrecht, central Netherlands. Transdev Nederland Holding is one of the largest operators in the Netherlands and a leader in zero-emission mobility. The order for 96 electric Solaris buses is a part of the company's strategy to replace the entire fleet in Utrecht with zero-emission vehicles. Currently, the city operates 50 bus lines, serving 30 million passengers annually.

The customer opted for Solaris High Energy battery solution, known for their high capacity and ability to reduce the need for frequent recharging throughout the day.

Transdev Nederland is already familiar with Solaris products. Its subsidiary, Connexxion, operates a fleet of 20 Urbino 12 hydrogen buses in South Holland, powered by fuel cell technology. Additionally, Solaris' Trollino 18 trolleybuses in the distinctive MetroStyle design have been operating in Arnhem for several months.

##### **About our company**

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
