

PRESS RELEASE

Another batch of Solaris trolleybuses for Tychy

Tychy/Bolechowo, 19.12.2024

Tyskie Linie Trolejbusowe (TLT Tychy) has signed a contract with Solaris Bus & Coach sp. z o.o. for delivery of 18 modern Trollino 12 trolleybuses. The new vehicles will be equipped with a range of innovative solutions aimed at improving passenger comfort and safety, as well as enhancing the efficiency of the city's public transport network.

Tychy, alongside Gdynia and Lublin, is one of three cities in Poland that use trolleybuses in its public transport system. The Tychy operator's fleet, TLT, already includes several dozen Solaris trolleybuses. Thanks to the contract signed in December 2024 between TLT Tychy and Solaris Bus & Coach, the Tychy fleet will soon be expanded by another 18 twelve-metre Trollino vehicles, with deliveries to be completed in early 2026.

In addition to the traditional trolleybus drive, the Trollino vehicles will be equipped with traction batteries that will enable driving also outside the overhead wires and in areas with no catenary. The vehicles will be able to be charged in two modes – while using the trolleybus network and while stationary, via a plug-in charging socket.

Tyskie Linie Trolejbusowe is a long-standing partner of Solaris. Since 2002, the manufacturer has delivered 30 trolleybuses and 2 electric buses to Tychy, co-creating the ecological transformation of public transport in the region.

About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
