

PRESS RELEASE

Solaris secures another major contract to deliver electric buses to Sweden

Bolechowo, 04.04.2025

Solaris has secured another significant contract to deliver electric buses to Sweden. Nobina Sverige AB has chosen Solaris to supply 89 electric buses for Stockholm. This order includes Solaris Urbino 15 LE electric models and follows recent orders from the same carrier.

In 2024, Solaris delivered 55 electric buses to Nobina for Stockholm and 28 buses for Nobina Skane. This time, the carrier ordered 89 vehicles, each 15 meters long.

Solaris Urbino 15 LE electric buses, equipped with Solaris High Energy batteries, will be delivered in the first half of 2026 and will serve both urban and suburban routes in the Stockholm area.

"Delivering yet another substantial batch of our 15-meter fully electric buses, proves that Nobina's continued trust in our organization and the quality of our products. This partnership underscores our commitment to providing sustainable and reliable transportation solutions, and we look forward to further strengthening our relationship with operator and contributing to greener urban mobility". – said Sverre Skaar, CEO Solaris Sverige AB.

Solaris has been present in the Swedish market since 2003, delivering nearly 800 buses, including zero-emission battery and hydrogen vehicles in recent years.

In 2024, Solaris sold a total of 1,525 vehicles, a 4.7% increase compared to 2023. This success contributed to the group's revenue of €927 million, a 13% increase from the previous year. Notably, battery buses, hydrogen buses, trolleybuses, and hybrid vehicles made up a record 83% of sales in 2024.

About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the

prestigious 'Bus of the Year 2025' title.
