

PRESS RELEASE

BVG places another e-bus order: 270 articulated Solaris buses!

Bolechowo, 30.06.2025

Berliner Verkehrsbetriebe (BVG) has placed another order for articulated electric Solaris buses under an existing framework agreement. Following the delivery of the first batch of 50 Solaris Urbino 18 electric buses, the Berlin public transport operator has now ordered an additional 270 vehicles of the same length.

BVG has decided to purchase 270 articulated Solaris Urbino 18 electric buses. This expands the order placed in December 2023, which included the first 50 articulated Solaris buses. The framework agreement provides for a flexible and demand-oriented maximum quantity of up to 700 electric articulated buses over a period of 8 years.

“Fleet electrification and infrastructure modernization are key challenges faced by public transport operators across Europe today. BVG is tackling them in an exemplary way, consistently investing in the best zero-emission solutions available on the market. Being awarded another – and record-breaking – order by BVG is a strong sign of our successful and long-standing partnership,” said Christian Goll, Managing Director of Solaris Deutschland GmbH.

The buses will be equipped Solaris High Energy batteries. Charging will be possible both via a standard plug-in socket and a pantograph.

About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
