

PRESS RELEASE

Mobco 2026 in Paris: Solaris showcases the Urbino 12 electric with a modular drive

Paryż/Bolechowo, 09.06.2026

Mobco 2026 is now underway in Paris, serving as a platform for knowledge exchange for the urban mobility sector. During the three-day event, bus producer Solaris Bus & Coach is presenting the Urbino 12 electric with a modular drive system. We warmly invite you to visit our booth no. 95 in Hall 4.

Mobco 2026 takes place in Paris from June 9-11. The event is organized by GART and UTPF, key French organizations representing the public transport and urban mobility sector. The trade fair is held at the Paris Expo Porte de Versailles exhibition center.

At our booth, we are presenting the Solaris Urbino 12 electric in a version based on a modular drive architecture. It is a modern, zero-emission city bus equipped with next-generation batteries, offering an impressive range. The modular drive system not only maximizes passenger capacity and improves visibility from inside the vehicle for passengers, but also facilitates maintenance and provides high flexibility in the rooftop configuration.

Thanks to its flexible solutions, the bus can be seamlessly integrated into any urban transport infrastructure, making the Urbino 12 electric an ideal choice for a sustainable future of modern cities.

Booth no. 95, where Solaris representatives are waiting for you together with the exhibited Urbino 12 electric, is located in Hall 4 at Paris Expo Porte de Versailles. We encourage you to meet our experts, get to know the vehicle up close, and join discussions on the transition toward zero-emission mobility. See you in Paris!

About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
