

## PRESS RELEASE

### Virtual tour of Solaris headquarters

Bolechowo, 19.02.2016

**Solaris Bus & Coach has launched a virtual walk through its manufacturing plant in Bolechowo near Poznań, where innovative buses and trolleybuses are being produced. The 360° panoramic images, which are available in the Street View function of Google Maps, were taken both in offices and in production halls.**

Thanks to the virtual tour Solaris, customers and suppliers are able to see what the manufacturing processes of the environmentally friendly vehicles looks like. From the comfort of any computer, one can take a walk through the plant and become familiar with many production stages – from the bodyframe to the finished bus. Moreover it is possible to look inside a few offices, including Solaris Visual Design Center where the company's customers can configure and customize products in virtual reality.

Solaris manufactures its innovative public transport vehicles in four plants located around Poznań. Bodyframes for buses and trams are being built in two welding facilities in Środa Wielkopolska. Final assembly of rail vehicles takes place in Poznań. The last production stage of Solaris buses and trolleybuses is carried out in Bolechowo, in the largest of four plants which is also the company's headquarters.

The virtual tour of Solaris's Bolechowo site is accessible through Google Maps at:

#### About our company

Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe. It focuses on the development of low-emission and zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. Over 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. All activities undertaken by the company are in line with its mission, which is reflected in the brand's promise: to change the image of public transport. Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility. Solaris products have been repeatedly awarded for quality and innovation. The Urbino 18 hydrogen bus has won the prestigious 'Bus of the Year 2025' title.
