

Solaris Bus & Coach Company is looking for suppliers specializing, among others, in **polyurethane processing** using **RIM technology** (RIM, reaction injection moulding) **for production of large-size** elements of vehicle fittings.

Requirements of Solaris Bus & Coach:

- experience in production of polyurethane parts with RIM method
- consistency of products with 95/28/EC directive
- ISO 9000 certificate, other quality certificates
- deliveries Just In Time – according to Solaris production schedule
- well-equipped machine park to make the above mentioned parts
- own tool room
- own engineering and design department (expertise in CAD software)
- flexibility and speed in implementation of modifications and new design solutions

We offer:

- participation in new projects
- possibility of cooperation extension with regard to other details and subassemblies
- long-term cooperation

Contact:

The offers should be submitted to Piotr Grabiasz (phone 0048 61 667 27 58, email: Piotr.Grabiasz@solarisbus.com)
