

Solaris Bus & Coach Company is looking for suppliers specializing in production of synthetic elements with **thermoforming** technology.

Requirements of Solaris Bus & Coach:

- experience on production of plastic parts with thermoforming method (ABS, ABS/PMMA, ABS/PC, PC).
- consistency of products with 95/28/EC directive
- ISO 9000 certificate, other quality certificates
- deliveries Just In Time – according to Solaris production schedule
- well-equipped machine park to make the above mentioned parts
- own toolshop
- own engineering and design department (expertise in CAD software)
- flexibility and speed in implementation of modifications and new design solutions

We offer:

- participation in new projects
- possibility of cooperation extension with regard to other details and subassemblies
- long-term cooperation
